Bruce asked Dennis what a self-contained unit would cost, and Dennis was able to get an estimate of \$24,000-\$25,000 plus a converter & freight.

Eric suggested getting an estimate for electrical & other costs to set up a second trailer and suggested going with equipment that is interchangeable between towns. Dennis mentioned that a new trailer would cost \$120,000-\$130,000. Eric suggested that the SRLD develop a strategic plan.

AMHERST COMPACTOR – Bruce asked Dennis about the cost to refurbish the compactor. Dennis estimated \$40,000-\$60,000 depending on what he finds when he takes it apart. He also mentioned again that something must be done about the damage caused by salt. Eric said that he has arranged to meet with an engineer about a roof and deck.

NREL STUDY – Eric reported that the study is complete, and he will forward the report to the board for review and comment.

NEW BUSINESS
